

IS32CG5317 Hardware Development Kit (HDK)

HARDWARE ITEMS:

The CG5317 Hardware Development Kit (HDK) contains the following:

- CG5317 reference board schematics, layout and BOM
- CG5317 Design Guide document

Note: CG5317 reference design boards not provided with HDK standalone purchase. The CG5317 EVK purchase includes boards

ELECTRONIC PACKAGES:

- HDK package
- SDK package

The design guide document provides design considerations for hardware engineers to integrate the CG5317 HomePlug Green PHY solution into their application. The document describes how to connect and configure the CG5317 at the hardware level and provides layout guidelines to achieve maximum performance.

ORDERING INFORMATION:

Part No.	Package
IS32CG5317HDK	Electronic compressed archive file

The CG5317 HDK can be purchased:

- as a standalone electronic package or
- provided along with the Evaluation Kit (EVK) purchase. Please reference CG5317 EVK product brief for more details.

After purchase, goto the Lumissil CG5317 product webpage, and complete a download request questionnaire. Once approved, download link will be emailed to the requestor.

Note: Executed NDA is required for HDK access. Please contact your Lumissil Sales Representative for assistance.
